_____

RESUME SUMMARY

I am a Cuban professional who likes to excel every day in my field, I´m capable of improving and develop myself according to the needs of the development environment. I have worked in networks, systems management, and developing software for more than 5 years in several technologies that I describe on Skills section. My desire is to keep learning and getting expertise in order to enhance the capability of facing every technological issue and thus contribute solidly to improve companies. I love teamwork and camaraderie.
